

A fast & dependable solution at your fingertips.

Dreading service calls? Look no further!

Allanson's Chek-Mate™ allows you to instantly test double pole electric ignitors and iron core transformers from various manufacturers in a fast and dependable way. Touch the high voltage spheres to the high voltage contacts of any transformer or ignitor and the green LED will light up if the unit is performing well. **It really is that simple!**

A very easy-to-use, lightweight and compact solution, making your service calls quick and easy.

Reliable. Portable. Durable.
