

LED Wireless Driver

- RF 2.4GHz wireless signal, no need for signal cable
- Dimming, CT, RGB, RGBW LED lights can be controlled
- · Compatible with F series remote
- Support APP if equipped with ACL-WIFI-106 gateway

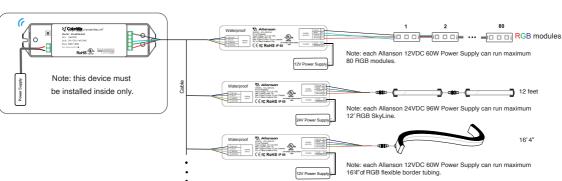

System Diagram

Cable Type	Max. Distance from farthest Power Repeater (#ACL-3063-3A)	Max. Quantity of Power Repeaters (#ACL-3063-3A)
18AWG 4 Conductor	900′	50 units

Specification

Model	ACL-WR-F4-3A	
Name	CV LED wireless driver	
Wireless signal	RF 2.4GHz	
Input voltage	12-24Vdc	
Output voltage	12-24Vdc	
Current load	5A (12V) / 4A (24V)	
Output power	60W / 96W	
Protection	Reverse connection protection	
Working temperature	-30°C~55°C	
Product size	L125×W33×H20(mm)	
Package size	L127×W35×H22(mm)	
Weight(G.W.)	60g	

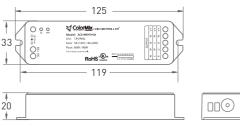

Terminal Description

Product Size

Unit: mm

ACL-WR-F4-3A

Match Code (power on method)

Power on and off the receiver continuously for 10 times, if the lamps flicker 5 times, the matching was deactivated successfully
